standing does not see the overall, big picture. God and His Word never changes. God knows all. Trust God!  
The following may be a good part of the world's problems today. People are told to "follow their heart." Follow you heart is not Biblical advice! Proverbs 28:26 says "He that trusteth in his own

heart is a fool; but he who walks wisely shall be delivered." Jeremiah 17:9: "The heart [is] deceitful above all [things], and desperately wicked: who can know it?" (KJV)  
"A word of encouragement during a failure is worth more than an hour of praise after success."

Quote: "Integrity is choosing your thoughts and actions based on values rather than personal gain." Unknown  
Strength is forgiving people who aren't even sorry for their actions. Strength is putting a smile on your face when you want to cry a river. Strength is not hurting those who hurt you. Strength is forgiving others - it doesn't mean that you have to forget the consequences but you must forgive the person.  
Knowledge is not the same as wisdom. A true test of wisdom is knowing how and when to act according to God's will. Your most useful and valuable assets are NOT a head full of knowledge but a heart full of love, an ear ready to listen, and a hand willing to help others. The Bible is serious when it says "lean not on your own understanding." Your heart is deceitful, your emotions fluctuate with time and events, and your under-

### WISHES AND WANTS

Wishes and wants vs. have too's and needs,  
Comes down to separating grain from the weeds.  
It can break up a community once strong  
When people think that the other side is wrong.

Compromising isn't easy no matter the case,  
Having your way doesn't always mean first base.  
Sacrificing the geese that lay the golden eggs  
Can end up with all struggling on their last legs.

Bigger may not be better when in the plan  
You have bankrupted the folks on the land.  
You can import problems along with numbers  
And end up with nothing but lots of fumlbers.

I don't know the answer, I wish that I did.  
Sometimes you must search for something that's hid.  
Examine all sides of the coin in the toss,  
Make sure that you haven't lost win in the loss.
