Over The Hills

J.R. Trumbull

Quote: "Trust and Respect: The two easiest things in life for someone to lose and the hardest things to get back."

DAVIDS WORDS FOR WISDOM

I found this the other day and decided it was well worth sharing. I have been making use of technology during my "stay-cation" but I do miss the interaction with people and take advantage of being with others at a social distance whenever possible.

"I had spent an hour in the bank with my dad, as he had to transfer some money. I couldn't resist myself and asked...

"Dad, why don't we activate your internet banking?"

"Why would I do that?"

He asked... "Well, then you won't have to spend an hour here for things like transfer.

You can even do your shopping online. Everything will be so easy!"

I was so excited about initiating him into the world of Net banking.

He asked "If I do that, I won't have to step out of the house?"

"Yes, yes"! I said. I told him how even groceries can be delivered at door now and how Amazon delivers everything!

His answer left me tongue-tied.

He said "Since I entered this bank today, I have met four of my friends, I have chatted a while with the staff who know me very well by now.

You know I am alone...this is the company that I need. I like to get ready and come to the bank. I have enough time, it is the physical touch that I crave.

Two years back I got sick. The store owner from whom I buy fruits, came to see me and sat by my bedside and cried.

When your Mom fell down a few days back while on her morning

walk. Our local grocer saw her and immediately got his car to rush her home as he knows where I live.

Would I have that 'human' touch if everything became online?

Why would I want everything delivered to me and force me to interact with just my computer?

I like to know the person that I'm dealing with and

not just the 'seller'. It creates bonds of relationships.

Does Amazon deliver all this as well?"

Technology isn't life.. Spend time with people .. Not with devices."

Writer: Unknown
 Technology is nice but it isn't everything. It isn't that warm human touch that is so necessary to live life to its fullest.

COMPUTING SALVATION

Forgiveness means
 Your old files are deleted,
 You are being reprogrammed,
 And your system rebooted.

Your new anti-virus
 Is Jesus the Lord
 And the price is far greater
 Than you alone could afford.

The great cost was paid
 By Christ on the Cross
 And, better than Bill Gates,
 God is the Top Boss!

Satan would say
 That God is obsolete
 But without God
 No one is complete.

God is bigger
 Than mega or gigabytes.
 There's no end to his RAM
 And His memory exceeds light.

But He can delete
 The vilest of sin.
 Just call on His name
 And let Him come in.

With His Great Plan
 You get the ultimate upgrade-
 A future in Heaven
 That's not open to trade.

So click right on Jesus
 His site is never down.
 Check out His program
 And go for that crown.

It's not hard to download,
 It's ruled by the wisdom of ages.
 Just sign in with Jesus
 And study those pages!

Be prepared for a battle
 With the vilest of worms
 But with God on your side,
 It's all on His terms.

Your site will be secure
 For eternity's ages
 And you'll never go down
 When you're computing with Jesus.
