your time, but if you don't give UP, you may wind UP with a hundred or more When it threatens to rain, we say it is clouding UP. When the sun comes out we say it is clearing UP. When it rains, it wets the

earth and often messes things UP. When it doesn't rain for a while, things dry UP. One could go on and on, but I'll wrap it UP, for now my time is UP, so.....it is time to shut UP!

DO AND DON'T DO

If you do do what you should do
And you don't do what you shouldn't do,
Then you'll be OK.
But if you do do what you shouldn't do
Then you'll have to pay.
The cost may be small
Or the price may be great
But if you have done
What you shouldn't do
Then it's now too late!

You can't undo what's already done
Even if when you did it,
It seemed like fun.
All you can do is straighten up your act
And from now on
Behave with some tact
And do do what you should do,
Shun what you shouldn't do
And life will be better,
That's a fact.
