The following came from The Daily Word for Cowhands by Donald R. Stanton.

Reflections - If you were born before 1953

We all are survivors, I was born March 5, 1952. Consider some of the changes we have witnessed. We were born before TELEVISION, penicillin, polio shots, frozen foods, Xerox, contact lens, frisbees, the pill, the day after pill, radar, credit cards, split atoms, laser beams, ball-point pens, pantyhose, air conditioners, drip-dry clothes computers, mobile phones or anyone Walked on the Moon!

We got married first then lived together!

In our time, closets were for hanging clothes, not for "coming out" of.

Bunnies were small rabbits, and rabbits were not Volkswagons.

Designer jeans were scheming girls named Jean or Jeanne and having a meaningful relationship meant getting along well with your cousins.

We thought fast food was what you ate during LENT, and outer space was the back and balcony of the local theater.

We were before house-husbands, gay rights, computer dating, dual careers, day care centers, group therapy and nurs-

ing homes. We never heard of FM Radio, CDs, computers, cellular or apple phones, artificial hearts, word processors, yogurt, and guys wearing earrings.

For us time sharing meant togetherness, not computers or condominiums, a "CHIP" meant a piece of wood, hardware meant screws and nails, and software was not even a word! In the 1940's "Made in Japan" meant junk, and the term "making out" referred to how you made out on an exam.

Pizza hut, McDonald's, Burger King and instant coffee were unheard of.

We hit the scene at the local five and dime store, where you could actually purchase things for a nickel and a dime.

Washburn's Dairy sold ice cream cones for a nickel, double scoops for a dime.

Speaking of a nickel you could ride the bus, buy a Coke or enough stamps to mail one letter and two postcards all for only 5 cents!

You could buy a new Chevy coupe for \$600, but few could afford to, and it was a pity as gas was 11

cents a gallon!

In those days grass was mowed not smoked, Coke was drank, not shot in the arm. Pot was something you cooked in.

We were certainly not before the differences between the sexes was discovered, BUT we were surely before the sex change. WE had to accept and make do with what we had! And as a member of the last generation that was dumb as to think you needed a husband to have a baby.

GOD WAS IN OUR HOMES, SCHOOLS, PRAYER WAS SAID DAILY, WE KNEW THE VALUE OF LIFE, NO MATTER WHAT THE COLOR OF THE SKIN.

NO WONDER WE ARE SO CONFUSED AND THERE IS SUCH A GENERATION GAP TODAY!

BUT WE SURVIVED! WHAT BETTER REASON TO CELEBRATE?

Benjamin Disraeli said "When a man falls into his anecdote, it is time for him to retire."

Psalms 39:5, YOU have made my days a mere handbreadth: the span of my years is nothing before YOU. Each man's life is but a breath.

I'M NOT THAT OLD
Who are all these old people
Come to celebrate with me today?
Gray hair, no hair, glasses -
They haven't aged well I'd say.

Some still should be kids
Or so it seems to me.
Why it was only yesterday -
I think - maybe?

Time has slipped away
Alas, golly me,
I'm just not as young
As I once used to be.

Between the Lines

Dean Thompson

I get lazier all the time! Those of you who have known me very long probably think I reached the max some time back. This week I'm going to follow last week's story, as I almost promised I would, with just a name, as memories kick in from those many years ago.

There are so many names out there, but I remarked last week that I believed the name 'Graham' was gone now because of death, but because of marriages and births the family lives on in our midst. Let me tell you my memories dating back to 1941. I know that's not so long ago, but neither was it yesterday.

Leander Graham took as a Kincaid in 1913, three fourths of the section 18-17-39 check that. This

piece of land had been part of what was known as 'the reserve' in Arthur county. Lee had already gotten a 160 acre homestead in Colorado to make his full section. I don't know enough facts to know if he ever got trading done for the rest of his section in Arthur County. I only go back as far as 1941 in that area so am going to try to build my story back that far. There are all kinds of references just like for almost every family in the sandhills area. I think our Arthur County history book paints a fairly accurate picture of this era, but I can personally only remember back eight decades in this story. I know all the roads have

changed, but in 1941 I believe the road, either the one to Melvin Adkins where my sister boarded to teach the unruly Wilson, Johnson and Lanka kids, or the road to the Bill Simon place where my cousin boarded and taught, among others, the McKeag kids, crossed the Graham section. Lee had suffered a stroke and I believe still lived on his Kincaid then with his daughter, Alma, while his wife, May, had moved in to Arthur to "May's Place" (where else would she live?) to provide a home for Harold, Edgar and occasionally Millie. The first child, Irene, had
