The feed handlers the past few weeks have tested their patience as the roads have been nearly impossible for semi-trucks to go out to the ranches. This puts everyone to work with pickups, trucks or any other way to transport it into the ranches. Also with the heavy snow fall, the old cows have it a little hard picking, so this puts more chores on the ranchers with hay and

cake to feed.

Rocky and Pat Nicholson arrived home Friday night for a furlough with their folks, the Von Paxtons and Don Nicholsons and families over the Thanksgiving holiday.

Smokey Allen came home last Thursday after quite a stay in the Mullen hospital.

Over The Hills

Quote: "When you're gone, nobody is going to remember you for the things you had or didn't have. People will remember you for who you were as a person, how you lived, treated and made others feel. It's not even about being remembered the longest, it's about leaving a positive footprint in people's hearts. So live a peaceful and harmonious life. Be good. Do good. Love people. Take risks. Be not afraid. Express your heart. Make mistakes. Grow stronger and wiser. Don't just spread love, BE love." - Unknown

Cow-Calf cost of production workshops to be held

The Cow-Calf Cost of Production Workshops will provide a hands-on learning experience for producers to learn how to calculate a unit cost of production for a cow-calf operation. The two-day workshops will be held on November 29-30 at the 4-H Building in Kimball from 8:30 am - 4:00 pm and December 6-7 in Arthur at the Fairgrounds from 8:30 am - 4:00 pm.

Having information to make effective business decisions is important for ranch success. Enterprise analysis and unit cost of production (UCOP) are tools that can help ranchers identify where value is being created on the ranch, where costs are occurring, and what changes could be made to improve profit.

For cow-calf producers, UCOP is figured as cost

DO AND DON'T DO

If you do do what you should do
And you don't do what you shouldn't do,
Then you'll be OK.
But if you do do what you shouldn't do
Then you'll have to pay.
The cost may be small
Or the price may be great
But if you have done
What you shouldn't do
Then it's now too late!

You can't undo what's already done

Even if when you did it,
It seemed like fun.

All you can do is straighten up your act
And from now on
Behave with some tact
And do do what you should do,
Shun what you shouldn't do
And life will be better,
That's a fact!
