Over The Hills

J.R. Trumbull

bought a new pickup. I
got up very early one Sun-
day morning and saw
that someone had spray
painted red all around
the sides of this beige
truck (for some unknown
reason).

I went over, woke him
up, and told him the bad
news. He was very upset
and was trying to figure
out what to do ... proba-
bly nothing until Monday
morning, since nothing
was open.

Another neighbor came
out and told him to get
his WD-40 and clean it
off. It removed the un-
wanted paint beautifully
and did not harm his
paint job that was on the
truck. I was impressed!

WD-40 who knew?
"Water Displacement
#40". The product began
from a search for a rust
preventative solvent and
degreaser to protect mis-
sile parts.

WD-40 was created in
1953, by three techni-
cians at the San Diego
Rocket Chemical Com-
pany.

Its name comes from
the project that was to
find a 'Water Displace-
ment' Compound. They
were finally successful
for a formulation, with
their fortieth attempt,

thus WD-40. The 'Convair
Company' bought it in
bulk to protect their atlas
missile parts. Ken East
(one of the original
founders) says there is
nothing in WD-40 that
would hurt you.

When you read the
'shower door' part, try it.
It's the first thing that has
ever cleaned that spotty
shower door. If yours is
plastic, it works just as
well as on glass. It's a mir-
acle!

Then try it on your
stove-top. It's now shinier
than it's ever been.

You'll be amazed.
1. Protects silver from
tarnishing.
2. Removes road tar and
grime from cars.
3. Cleans and lubricates
guitar strings.

4. Gives floor that 'just-
waxed' sheen without
making them slippery.
5. Keeps the flies off of
cows, horses, and other
farm critters.

6. Restores and cleans
chalkboards.
7. Removes lipstick
stains.
8. Loosens stubborn zip-
pers.
9. Untangles jewelry
chains.
10. Removes stains from
stainless steel sinks.

Between the Lines

Walz Family

I plan to share a few
memories of the Walz
name this week. As you,
who live in the Sandhills
of Nebraska know, we are
closely connected and re-
lated and one name al-
ways blends with another,
and records and mem-
ories often mix. I plan to just
stir your sense of curiosity,
because many familiar
names will surface.

Selfishly, I plan to just
write a two pronged story
of familiarity with the
Harlen Walz family start-
ing first and then a few
memories of the next
generation ending with
Marv.

John and Mae Walz, and
a brother of John, named
Nick, came to Arthur
County from the Stapleton
area and took Kincaid
sections in 1913. When
Nick went to the service,
in WW I, he sold his land
to John. Another two sec-
tions has been added to
the land of John and
Nick, which includes
land which had been
owned by Alfred. An inter-
esting note to me is
that when the well quit,
near the house on this
land in the dead of winter,
brother Don and I
chopped through a patch
of ice to drill a new well,
and hooked the mill up
with a rocker arm to
avoid moving the tower.

A couple little updates
for Arthur people, part of
which will soon be history
and forgotten. When
Henry Swanson, father-in-law
of Harlen, spearheaded the
drive to build a nicer fence
around the cemetery, he recruited
Jens Pihl to lay the brick
posts for the front gate.
When Mae Walz died in

1967, the family re-
cruited my brother Don
to build the sign over the
brick corners and, as of
now, it still has the
plaque with that information.
In 2023 with some
changing and repair of
Highway 62 and 92 the
gate has been moved far-
ther north along the east
side of the cemetery.

During my junior year
of high school I worked
for Lloyd Heath for half
of my room and board for
the first semester. Lloyd
had a repair shop about
where the post office is
now and he had the 'Old
Cowboys Rest Home'
where I pumped gas for
19.9 cents a gallon. When
Lloyd left Arthur at se-
mester, Harlen moved to
town and ran a repair
shop in Lloyd's building
until he began to work for
the state in 1952. He
started in November
working for \$1.25 per
hour and using his own
truck for repairing High-
way 62. Harlen married
Lois Swanson on Febru-
ary 13, 1948 and raised
his family of four in
Arthur.

Harlen was the youngest
of his five siblings, children
of John and Mae.
The only girl, Elizabeth,
married Ben Fulcher
who was a barber in
Arthur until they moved
to be near army bases
where he was able to
manage a GI haircut,
which could have been a
substitute for a 'scalping',
in about three minutes.

Alfred married Nellie
Wheeler and died quite
young in 1965. Nellie later
married Al Knott and lived
with him in Arthur, until
2005. One of Alfred and
Nellie's sons was Marv,
whom I promised to use
the rest of my words
about this week.

Marvin was born as the
third child of Alfred and
Nellie in December of

Dean Thompson

1941, married an Arthur
County girl, Theo Wilson,
and the rest of my words
are at random about
Marv.

Marv purchased the
home place in 1968 and
lived there until his
death May 20, 2020 of
pancreatic cancer. He,
and Theo raised their two
children, Troy and Del
Rae here. Del Rae was
killed in a tragic car acci-
dent and Troy has raised
his family of boys and
served as Custer County
Agent in Broken Bow.

Marv graduated from
High School at Arthur in
1960 and was drafted into
the Army in 1964. He
served in Vietnam, con-
tacted Malaria and was
discharged in December
of 1965. He married Theo
in June of 1966, and
moved back to the home-
place in 1967.

Marv was an accom-
plished horseman and
cattleman. I once bought
a good 'old' horse from
him. Due to some dietary
requirements of Troy,
Marv raised buffalo
among his cattle. He was
a skillful worker of iron
and I often shared deliv-
ery of a load of steel with
him. Perhaps I should
have made some refer-
ence earlier, but I like to
be grouped with Marv,
and Harlen too, in our
mutual connection to the
church at Arthur. I have
to admit to a little jeal-
ousy in confessing my
envy to their earlier
rival at heaven's gate
where anything I have
written will be negated
by a booming, or perhaps
only a whispered, "Well
Done."

There is much more
mention of the Walz
name in other places,
including the Arthur
history book and I hope
some of my personal ref-
erences will encourage
others to bring some
thoughts to the surface.

DO AND DON'T DO

If you do do what you should do
And you don't do what you shouldn't do,
Then you'll be OK.

But if you do do what you shouldn't do

Then you'll have to pay.

The cost may be small

Or the price may be great

But if you have done

What you shouldn't do

Then it's now too late!

You can't undo what's already done

Even if when you did it,

It seemed like fun.

All you can do is straighten up your act

And from now on

Behave with some tact

And do do what you should do,

Shun what you shouldn't do

And life will be better,
